## **Crisis within Syria Causes Mass Migration.**

Right now millions of people are fleeing their home country of Syria due to the conflict between President Bashar al Assad's forces, rebels, and ISIS, which has resulted in the deaths of over 200,000 people. Over half of whom are just civilians. The people of Syria are now losing their lives and homes over this conflict. Because of that conflict there are now millions of Syrian refugees flooding into European and neighboring Middle Eastern countries. Most European countries have issued that they are only taking a specific amount of refugees; meanwhile Germany has stated that their country borders are open to all Syrian Refugees. While the U.S. has stated that we are only taking in up to 100,000 refugees.

## **Electrical Fire or Arson at New Pointe Hotel?**

For over 60 years, New Pointe Hotel has stood as a historic landmark, but on Thursday October 16, 2015 there was a horrendous electrical fire resulting in the deaths of four staff members and one guest. The Fire allegedly had started over bad electrical wires due to the fact the building opened up to the public back in 1957. But both the Chiefs of the Police and the Fire Dept. claim that is not true, due to the fact all of the wiring in the hotel had been replaced three years ago. No further comments have been made on the treacherous fire.

## **Back To the Future Day!**

After today October 21, 2015, everything from the movie "Back to the Future 2" which came out in 1985 will be put into the past. In the movie, the main character Marty McFly travels to the future from 1985 to save his future children. Even though we may not have hover boards or self-lacing Nikes today the movie will always be considered a classic.

## **Weekly Movie Review on: American Sniper**

American Sniper is True story about U.S. Navy SEAL Chris Kyle about his time in Iraq and affected his civilian life. The movie itself was directed by

former actor Clint Eastwood starring Bradley Cooper as Chris Kyle. The movie had a sort

of a gritty tone to it as soon as the film began and had it climaxes and falls. Overall I give the film a rating of ★★★★★ out of 5.
